

Jumping Pillows® have been around Europe for over 20 years and have expanded into Australia, New Zealand, North & South America and now SOUTHERN AFRICA! By all accounts, the parks and resorts that have installed Jumping Pillows® have been extremely happy with the results and have found that it is rapidly becoming the PLAYGROUND APPARATUS OF CHOICE. We have the sole rights to the concept in Southern Africa and have Jumping Pillows installed throughout the country.

The Jumping Pillow® is a PERMANENT INSTALLATION and requires very little maintenance. It is made of specially imported fabric that is UV treated and hard wearing. It is comparatively safe and is designed specifically with safety in mind. All hard objects are covered with a cushioning skirt around the perimeter.

Pillows range in size from approximately 36 m² (square meters) to more than 210 m², depending on the client, location and usage needs.

Some Playgrounds even install 2 pillows – one to cater for older patrons and the other for smaller children.

Although Jumping Pillows® (JP) are made to suit individual client's needs (and the available site area), we record an **indicative OUTDOOR SPEC** price schedule of a few pillow sizes (subject to exchange rate/supplier fabric size changes/etc.):

Approximate sizes of fabric (above and below ground) **within RSA borders**:

- | | |
|--|---------------------------------------|
| • 6m x 6m / 2 Colour JP (for young kids only) – R 58,500 | • 10m x 18m / 6 Colour JP – R 105,000 |
| • 7m x 9m / 3 Colour JP – R 75,500 | • 12m x 18m / 6 Colour JP – R 112,000 |
| • 10m x 12m / 4 Colour JP – R 90,000 | • 10m x 21m / 7 Colour JP – R 113,000 |
| • 10m x 15m / 5 Colour JP – R 97,500 | • 12m x 21m / 7 Colour JP – R 120,000 |

Please Note: **All prices quoted above EXCLUDE:**

1. Value Added Tax (VAT),
2. the cost of clean plaster sand,
3. digger hire costs (usually for 1 day),
4. supply of 220v electrical point,
5. preparation of site prior to installation (can be elaborated on in due course).

Installation is included and usually takes 1 day unless any unforeseen problems are encountered. If possible, we would require accommodation to be provided for the small installation team.

Since the pillows are normally specifically made to order, lead time is approximately 2 – 4 weeks.

Unique company branding can be painted onto the Jumping Pillow (at an additional cost).

After due consultation and discussions a **FIRM QUOTE** will be formally provided.

Payment Terms: A deposit of 50% is required on placing of order. Balance is due on day of installation.

We urge you to view a few YOUTUBE clips to get a better idea of the concept and how much fun ALL ages actually do have on the Jumping Pillow®.

If you have not yet visited our web site, please do so for any further information on www.jumpingpillows.co.za.

Trusting above is in order and trust that we will be 'jumping' in the near future.
